

## Artisan Baked Goods Nutritional Information (Illinois)

Peet's has selected experienced, local bakeries to create a wide selection of baked goods in the tradition of Artisans – made by hand, in small batches and delivered fresh daily. The following nutritional information is provided by our baked goods suppliers and is intended only as an estimate. Because of the handcrafted nature of the baked goods at Peet's, serving size and nutritional data may vary. Not all items are available in every location. All of our baked goods are produced in bakeries where known allergens are present. We cannot guarantee that any of our products are free from allergens (including dairy, eggs, soy, tree nuts, wheat and others) as we use shared equipment to store, prepare and serve them. Data is rounded to meet FDA regulations. 2,000 calories a day is used for general nutrition advice, but calorie needs vary.
